

Connect Banking helps you simplify your payroll process, lower your costs, and help your employees start a local banking relationship.

Connect Benefit For You

Connect Banking helps you encourage direct deposit, which saves you time and money by reducing check printing costs, eliminating your concerns about check distribution or misplacement, and allowing you to spend less time reconciling bank statements.

Connect Benefit For Your Team

Your employees will have the opportunity to build a local banking relationship with us. We waive the minimum opening deposit requirement and start them with direct deposit.

Get Started In 3 Steps

1. Executive Visit:

A TRB advisor will visit you or your human resource representative to review the benefits of the program with you and your team.

2. On-Site Visit:

We will meet with your employees, individually or in a group, to review the products that best meet their needs and collect the necessary information to start building a relationship.

3. Branch Visit:

Your employees will stop by their local TRB banking center to meet our team, finalize the opening of their account, and enroll in other financial services we offer.
